

Comfort Simplicity Versatility

Integrated Protection with in-built comfort and versatility

The Versaflo Spray Painters' Kit features a lightweight compact and well-balanced M-Series Faceshield and belt worn V-Series Air Regulator that offers integrated respiratory, eye and face protection.

The faceshield and air regulator are easy to use and maintain while helping to provide the wearer with protection from a range of workplace hazards.

3M™ Versaflo™ Spray Painters' Kit

Key features

Comfortable Design

- Lightweight Faceshield, with excellent balance and field of view
- Fully-adjustable head suspension for optimal fit and weight distribution
- A deflector allows airflow to be directed for increased comfort and control
- Integrated low pressure warning whistle and silencer that reduces noise level to less than 65 dBA
- Replaceable active carbon filter removes odours
- Can be used with 3M compressed air hoses up to a maximum length of 30 m

Versatile

- Air Regulator delivering controlled, constant flow of air with locking control knob
- Auxiliary port allows air tools such as paint spray guns to be connected
- Air Regulator can be adjusted on the belt for right and left-handed users
- Accessories include earmuffs, peel-off visor overlay, helmet cover and chin strap

Easy to maintain

- Spare parts and accessories are quick and easy to replace

Specifications

- High impact visor meets the performance standard of AS/NZS 1337
- Meets AS/NZS 1716 performance standard for respiratory protection
- Silicone free headtop and air regulator
- Airline couplings are CEJN fittings

Air Regulator Performance Standards

- Pressure range: 3.5 – 8 bar
- Maximum pressure: 10 bar
- Manufacturer's Minimum Design Flow (MMDF) 170l/min
- Maximum Flow: 305 l/min
- Storage conditions -10°C to +50°C < 90 %RH
- Operating temperature -5°C to +40°C and <90% humidity
- Weight 514 g
- Inlet and auxiliary outlet port ¼ inch BSP thread
- The compressed air supply must comply with the quality requirements of AS/NZS 1715
